

COCKPIT SPRAY

DASHBOARD MAINTENANCE SPRAY

Description

The Rymax Cockpit Spray has a pleasant aromatic lavender odor. It is highly suitable for cleaning car dashboards together with other plastics in your car. It has excellent cleaning properties. Because of the foam characteristics it does not leave any residual waste on plastic or glass surfaces. It has a subtle smell and is anti-static. An excellent spray in order to keep your dashboard clean.

How to use?

Before use, carefully read the directions on the packaging and act accordingly.

The aerosol should have room temperature, the best processing temperature is 5 to 30°C. Before use, shake the aerosol.

Apply the cockpit spray on a dry, clean cloth and distribute evenly over the surface to be treated. Then, polish with a dry cloth until a gloss has been achieved.

In view of decreased grip, avoid contact with the steering wheel and the control pedals.
