

DIONE BS

ANTI FREEZE AND ENGINE COOLANT

Description

A high performance engine coolant, which exceeds the requirements of British Standard as well as AFNOR. Antifreeze DIONE BS has been designed for all year round use to provide 'three way protection' against freezing, overheating and corrosion and is suitable for use in both petrol and diesel engines.

Benefits

Dione BS is a mono ethylene glycol based product which has been specifically formulated to be truly universal in its application, providing a high degree of corrosion protection for all engine cooling systems whether they be predominantly of aluminum or ferrous construction.

Performance levels

- BS 6580
- ASTM D 3306 / D 4656
- AFNOR NFR 15-601

Typical Properties

		Min	Max
Specific Gravity 20/20	°C	1.110	1.140
Reserve Alkalinity	ml	20	
PH 25% v/v	ml	7	11.5
PH 50% v/v	ml	7	8
Glycol content	%	94	
Boiling point	°C	160	
Water	%, wt		6
Freezing point	°C		-35
