

LINDAX EP 00/000 LT

SEMI FLUID EP LITHIUM GREASE FOR LOW TEMPERATURES

Description

Grease Lithium EP 00/000 LT is a premium quality Extreme Pressure lithium thickened grease produced from low volatile mineral oils, and a synergistic blend of additives and performance boosters.

Typical Properties

	Lindax EP 00/000 LT
Type of Thickener	Lithium
Type of Base Oil	Mineral
Penetration 60 str. @25 °C	400/430
Base Oil Visc, @40 °C Cst	40
Drop Point, min °C	160
NLGI Consistency	00/000
SKF EMCOR corrosion test	0-0
4-Ball weld load (kg)	240
Water Resistance	1-90
Operating temperature °C	-45/110

Benefits

- Recommended for use in all general purpose industrial and automotive applications where grease lubrication is preferred.
- The consistency of the grease as well as the relatively low viscosity of the base oil makes the product suitable for the use in Willy Vogel central lubrication systems.
- Suitable for light loaded closed gear boxes
- Also suitable for use in cotton picking machines
- As a result of the very good pump ability characteristics - Lindax EP 00/000LT is suitable for low temperature applications up to -45 °C.
